

Nom de l'élève : .....

Classe : .....

**Epreuve obligatoire de langue vivante étrangère au  
Baccalauréat Professionnel**

**ANGLAIS**

**Evaluation en cours de formation  
(CCF)**

**Situation A : épreuve écrite commune en trois parties  
Durée 1h00**

**Partie 1 : Compréhension de l'oral**

**Titre : Climate Change: What is greenwashing?**

**→Déroulement :**

Vous allez visionner une vidéo à 3 reprises.

Vous pouvez prendre des notes au fur et à mesure ainsi que pendant les pauses.

A l'issue du 3<sup>ème</sup> visionnage, vous rendrez compte du document **en français**.

**→Consigne :**

Vous rendrez compte du document **en français**. Vous indiquerez la nature du document, le thème, la situation, les informations significatives, l'identité du ou des personnes, les différents points de vue.

## Partie 2 : Compréhension de l'écrit

→ **Consigne** : Lisez le texte ci-dessous et rédigez un compte rendu **en français**. (Vous préciserez la nature du document, le thème, dégagerez les éléments principaux...)

**Titre: NIKE SPORTS SHOES FROM RECYCLED MATERIALS**

**Auteur: Hamish Mackay**

**Date: 1 OCTOBER 2020**

Sportswear brand Nike is prioritising major operational changes over launching sustainable products as part of its Move to Zero initiative to become a carbon-neutral company, according to chief sustainability officer Noel Kinder.

Under Move to Zero, which was announced last year, Nike has set itself the goal of reducing carbon emissions across its global supply chain by 30 per cent by 2030 as the first step towards becoming a zero-carbon and zero-waste company.

This initiative saw the brand release the Space Hippiie trainers earlier this year, which have the lowest carbon impact of any shoe made by the sportswear brand.

Operational changes are what "lowers our carbon footprint"

However, Kinder believes that it is the less glamorous operational changes, such as switching to green energy and reducing packaging waste, that will have the biggest impact on Nike's carbon footprint.

"It's hard not to get super excited about product, basically because it's so unique," he said at a roundtable event during the Climate Week NYC summit.
